

# CGFNS® Certification Program Qualifying Exam Test Centers

The CGFNS Certification Program Certificate, consisting of the CGFNS Qualifying Exam and a Credentials Evaluation, is valuable to internationally-educated registered nurses for the following reasons:

- The CGFNS Certification Program Certificate is required of internationally-educated registered nurses by a majority of U.S. states in order to take the NCLEX-RN® licensure examination.
- CGFNS Certification Program Certificate holders consistently have a higher rate of success on the NCLEX-RN examination than internationally-educated nurses who do not hold the Certificate.
- The CGFNS Certification Program Certificate helps internationally-educated registered nurses in their quest for an occupational visa to practice in the U.S. CGFNS was named in section 343 of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996 as an organization qualified to administer a screening program for healthcare professionals who are seeking an occupational visa. For internationally-educated nurses who have not taken the NCLEX-RN exam, passing the CGFNS Qualifying Exam fulfills one of the requirements of section 343.

The CGFNS Certification Program (CP) Qualifying Exam is offered four times a year in March, July, September\* and November, at more than 50 locations around the world. The qualifying exam measures an applicant's knowledge and is based on what nurses must know and do when they practice nursing in the United States.
